

Process

Our process is simple.

1. Contact HomeSmart for an inspection.
2. After storm damage evaluation, contact your insurer.
3. HomeSmart's Project Manager will meet with the insurance adjuster to review the damage.
4. Your adjuster will file a Summary Loss Report.
5. HomeSmart will review the report to make sure that the Summary Loss Report is complete and accurate.
6. Materials are chosen and a date is set to begin work.
7. We will notify the insurance company upon completion of work and initiate the release of remaining funds.

WHEN NATURAL DISASTERS CAUSE DAMAGE TO YOUR HOME, AN INSURANCE CLAIM WILL NOT AFFECT YOUR PREMIUMS. YOUR INSURER WANTS YOUR STORM DAMAGED HOME TO BE REPAIRED.

WE CARE

Our goal is to provide you with a quality of work and service that is second to none. Our reputation depends on the job we do for you. The finest compliment we can receive is a referral.

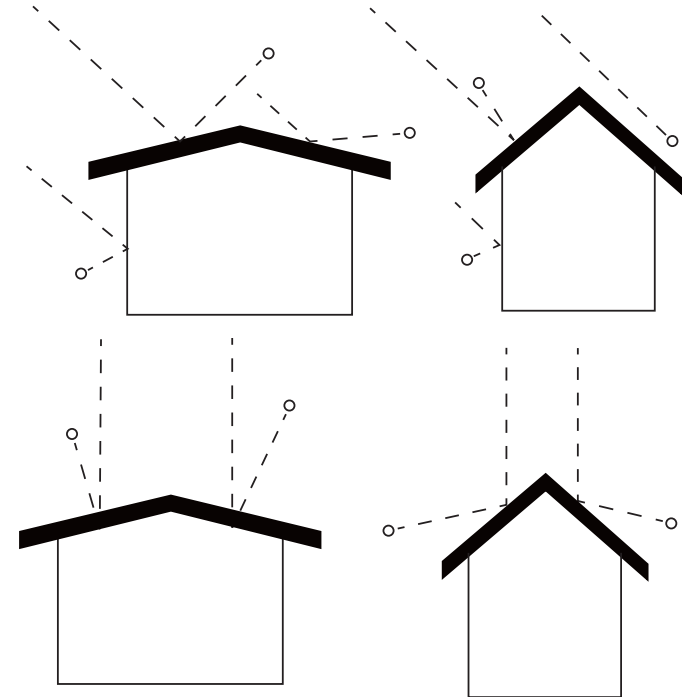

Thank you for choosing HomeSmart, the umbrella for you and your home.

Licensed and insured in several states.

Member of: National Roofing Contractors Association
Better Business Bureau

Warranties: In addition to the manufacturer's warranty, HomeSmart's workmanship is also warranted for 5 years.

Hail forms during violent thunderstorms with powerful winds. Hail stones $\frac{1}{2}$ inch in diameter and larger cause severe roof damage. A hail stone may impact one side of a roof more than the other due to wind direction. Hail striking a roof directly is more damaging than a glancing blow.

Your hail damaged roof may have many hail strikes, causing it to prematurely fail. Each strike will eventually cause the shingle to crack and leak.

About Us

Our Senior Management Staff has over 75 years of combined Construction and Property Insurance experience. With our expertise, we have developed a solution for all of your storm damage needs. We simplify the process of insurance claims, by working together with your insurer to provide quality and efficient service for you. Our staff, which includes inspection teams, project managers, and claims specialists, is highly trained in all aspects of storm damage restoration. We will work closely with you and your insurer to return your home to pre-storm conditions.
